Item 4: Advisory Business

Description of Advisory Firm

Slalom Wealth Management, LLC is registered as an Investment Adviser with the State of California. We were founded in March 2018. Anthony Matheson is the principal owner of SWM. As of December 31, 2023, SWM reports \$20,314,452 discretionary and no non-discretionary Assets Under Management.

Types of Advisory Services

Investment Management Services (SWM manages accounts)

We are in the business of managing individually tailored investment portfolios. Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We may also review and discuss a client's prior investment history, as well as family composition and background.

Account supervision is guided by the stated objectives of the client (e.g., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. Fees pertaining to this service are outlined in Item 5 of this brochure.

Use of Third Party Managers, Outside Managers, or Sub-Advisors (TAMPs)

We offer the use of Third Party Managers, Outside Managers, or Sub-Advisors (TAMPs) for portfolio management services. We assist clients in selecting an appropriate allocation model, completing the Outside Manager's investor profile questionnaire, interacting with the Outside Manager and reviewing the Outside Manager. Our review process and analysis of outside managers is further discussed in Item 8 of this Form ADV Part 2A. Additionally, we will meet with the client on a periodic basis to discuss changes in their personal or financial situation, suitability, and any new or revised restrictions to be applied to the account. Fees pertaining to this service are outlined in Item 5 of this brochure.

Participant Account Management (Discretionary)

We use a third-party platform to facilitate management of held away assets such as defined contribution plan participant accounts, with discretion. The platform allows us to avoid being considered to have custody of Client funds since we do not have direct access to Client log-in credentials to affect trades. We are not affiliated with the platform in any way and receive no compensation from them for using their platform. A link will be provided to the Client allowing them to connect an account(s) to the platform. Once Client account(s) is connected to the platform, Adviser will review the current account allocations. When deemed necessary, Adviser will rebalance the account considering client investment goals and risk tolerance, and any change in allocations will consider current economic and market trends. The goal is to improve account

performance over time, minimize loss during difficult markets, and manage internal fees that harm account performance. Client account(s) will be reviewed at least quarterly, and allocation changes will be made as deemed necessary.

Financial Planning

We provide financial planning services on topics such as retirement planning, risk management, college savings, cash flow, debt management, work benefits, and estate and incapacity planning.

Financial planning is a comprehensive evaluation of a client's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information and analysis will be considered as they affect and are affected by the entire financial and life situation of the client. Clients purchasing this service will receive a written or an electronic report, providing the client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address any or all of the following areas of concern. The client and advisor will work together to select the specific areas to cover. These areas may include, but are not limited to, the following:

- **Business Planning:** We provide consulting services for clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.
- **Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).
- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a

business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.

- **Credit Score Maximization:** We will review your credit report and make recommendations to maximize your scores for the potential current and future benefits of having a better credit score, such as lower interest rates on mortgages, personal loans, etc.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts.

We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.

- **Financial Goals:** We will help clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.
- **Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home and automobile.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance (“self-insuring”).
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency,” with consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

Comprehensive Financial Planning

This service involves working one-on-one with a planner over an extended period of time. By paying a fixed monthly fee, clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up to date.

Upon desiring a comprehensive plan, a client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefit, retirement planning, insurance, investments, college planning and estate planning. Once the client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the client. Clients subscribing to this service will receive a written or an electronic report, providing the client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. If a follow up meeting is required, we will meet at the client's convenience. The plan and the client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the client to confirm that any agreed upon action steps have been carried out. On an annual basis there will be a full review of this plan to ensure its accuracy and ongoing appropriateness. Any needed updates will be implemented at that time.

Tax Preparation & Tax Planning

We offer Tax Preparation services for our clients to assist with the filing of federal and state tax returns for individuals, trusts, and businesses. The fees associated with tax preparation services are separate and in addition to your ongoing financial planning or advisory fees and are disclosed in Item 5. We will utilize the services of XY Tax Solutions “XYTS”, a third-party accounting and tax planning firm, to facilitate the

preparation and filing of your tax return and we will work with you and XYTS to gather the necessary information as part of this service.

If the client also engages us for Tax Planning Services, XYTS's licensed CPAs will work with the client to also conduct research and answer tax-related questions to help the client adequately plan through certain transactions and financial changes so that they can fully understand any tax consequences or opportunities for savings in the future.

Estate Planning Coordination

We offer to coordinate estate planning services for our clients to assist in the formation of an estate plan. The fees associated with estate plan coordination services are separate and in addition to your ongoing financial planning or advisory fees and are disclosed in Item 5.

Retirement Plan & Pension Consulting Services

We offer retirement plan and pension consulting to businesses and other organizations, helping to manage their corporate retirement plans, improve participant outcomes, and make smart decisions aligned with the organization's long-term objectives. Retirement plan services are offered to corporate qualified and unqualified retirement plans, their sponsors, and their participants.

SWM may provide a number of services to retirement plan clients:

Act as a 3(21) fiduciary or 3(38) investment manager as defined in the Employee Retirement Income Security Act (ERISA)

- Plan design
- Investment Policy Statements
- Investment recommendations & performance monitoring
- Selection of Qualified Default Investment Alternatives (QDIAs)
- Investment management
- Review of fiduciary liability insurance coverage
- Fiduciary monitoring
- Education services to plan committee
- Participant education
- Individual investment guidance and/or advice
- Plan benchmarking & search support
- Custom services based on sponsor needs

Educational Seminars and Speaking Engagements

We may provide seminars on an "as announced" basis for groups seeking general advice on investments and other areas of personal finance. The content of these seminars will vary depending upon the needs of the attendees. These seminars are purely educational in nature and do not involve the sale of any investment products. Information presented will not be based on any individual's person's need, nor does SWM provide individualized investment advice to attendees during these seminars.

Client Tailored Services and Client Imposed Restrictions

We offer the same suite of services to all of our clients. However, specific client financial plans and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Wrap Fee Programs

We do not participate in wrap fee programs.

CCR Section 260.235.2 Disclosure

For clients who receive our Financial Planning services, we must state when a conflict exists between the interests of our firm and the interests of our client. The client is under no obligation to act upon our recommendation. If the client elects to act on any of the recommendations, the client is under no obligation to effect the transaction through our firm.

Item 5: Fees and Compensation

Please note, unless a client has received the firm's disclosure brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the client within five (5) business days of signing the contract without incurring any advisory fees. How we are paid depends on the type of advisory service we are performing. Please review the fee and compensation information below.

Comprehensive Financial Planning

Comprehensive Financial Planning consists of an upfront charge of \$1,000 - \$4,000 based on complexity and needs of the client, and an ongoing fee that is paid monthly, in advance, at the rate of \$150 - \$500 per month based on complexity and needs of the client. The fee may be negotiable in certain cases. Fees for this service may be paid by electronic funds transfer or check. This service may be terminated with 30 days' notice. Upon termination of the agreement, the fee will be prorated and any unearned fee will be refunded to the client.

The upfront portion of the Comprehensive Financial Planning fee is for client onboarding, data gathering, and setting the basis for the financial plan. This work will commence immediately after the fee is paid, and will be completed within the first 30 days of the date the fee is paid. Therefore, the upfront portion of the fee will not be paid more than 6 months in advance.

Financial Planning Fixed Fee

Financial Planning will generally be offered on a fixed fee basis. The fixed fee will be agreed upon before the start of any work. The fixed fee can range between \$1,500 and \$10,000. The fee is negotiable. If a fixed fee program is chosen, half of the fee is due at the beginning of the process and the remainder is due at completion of work, however, SWM will not bill an amount above \$500.00 more than 6 months in advance.

Fees for this service may be paid by electronic funds transfer or check. Upon termination, the half of the fee that is due up front will be non-refundable, and no further fees will be charged.

Hourly Financial Planning Fee

Financial Planning fee is an hourly rate of \$300 per hour. The fee may be negotiable in certain cases and is due at the completion of the engagement. In the event of early termination by client, any fees for the hours already worked will be due. Fees for this service may be paid by electronic funds transfer or check. Client and SWM will jointly determine an estimate of time needed and a “not to exceed” maximum each time a new planning project is undertaken.

Investment Management Services

Investment Advisory Services (SWM Manages): Our standard advisory fee is based on the market value of the assets under management and is calculated as follows:

Account Value	Annual Advisory Fee
The portion up to \$1,000,000	1.00%
The portion from \$1,000,001 to \$2,000,000	0.80%
The portion from \$2,000,001 to \$3,000,000	0.65%
The portion from \$3,000,001 to \$5,000,000	0.50%
The portion \$5,000,001 and over	0.25%

Use of Third Party Managers, Outside Managers, or Sub-Advisors (TAMPs): The standard advisory fee is based on the market value of the account and is calculated as follows:

Account Value	Annual Advisory Fee
The portion up to \$1,000,000	1.00%
The portion from \$1,000,001 to \$2,000,000	0.80%
The portion from \$2,000,001 to \$3,000,000	0.65%
The portion from \$3,000,001 to \$5,000,000	0.50%
The portion \$5,000,001 and over	0.25%

The Outside Manager (Sub-Adviser) will debit the client’s account for the Outside Manager’s fee, and SWM’s advisory fee will be debited separately. Please note, the above fee schedule does not include the Outside Manager’s fee. No increase in the annual fee shall be effective without agreement from the client by signing a new agreement or amendment to their current advisory agreement.

The annual fees are negotiable and are pro-rated and paid in advance on a quarterly basis. The advisory fee is a blended fee and is calculated by assessing the percentage rates using the predefined levels of assets as shown in the above chart, resulting in a combined weighted fee. For example, an account valued at \$2,000,000

would pay an effective fee of 0.90% with the annual fee of \$18,000. The quarterly fee is determined by the following calculation: $((1,000,000 \times 1.00\%) + (\$1,000,000 \times 0.80\%)) \div 4 = \$4,500$. No increase in the annual fee shall be effective without agreement from the client by signing a new agreement or amendment to their current advisory agreement.

The minimum annual fee is \$5,000, billed \$1,250 each quarter. Please note that any investment amount that is under \$500,000 will result in a higher fee percentage than those listed above. Also note that any charges for investment management services will go towards the minimum annual fee.

Advisory fees are directly debited from client accounts, or the client may choose to pay by check. Accounts initiated (or terminated) during a calendar quarter will be charged (or refunded) a pro-rated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Upon termination of the account, any unearned fee will be refunded to the client.

Accounts initiated or terminated during a calendar quarter will be charged a pro-rated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Upon termination of the account, any unearned fee will be refunded to the client.

Wealth Management Services

[For Clients with Assets Under Management over \\$500,000](#): Comprehensive Financial Planning services are provided as part of the annual advisory fee.

Tax Planning Services

Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their "tax efficiency," with consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

Estate Planning Coordination

We offer to coordinate estate planning services for our clients to assist in the formation of an estate plan. The fees associated with estate plan coordination services are separate and in addition to your ongoing financial planning or advisory fees and can range from \$750 - \$1,500.

Retirement Plan & Pension Consulting Services

Fees for retirement plan & pension consulting services depend on the scope of the scope and complexity of services provide. One-time projects are assessed a flat fee, varying from \$500 - \$25,000, or billed at an hourly rate of \$300. Ongoing services are assessed either a flat annual fee, or a percentage of the clients' total retirement plan assets using the **Investment Management Services** fee schedule. Both one-time projects and ongoing service fees are negotiable. One-time Retirement Plan & Pension Consulting Services

typically require a \$500 initial deposit, at the discretion of the adviser, with the balance being charge upon completion of the project. Ongoing services are billed in advance.

Educational Seminars/ Speaking Engagements

Seminars are offered to organizations and the public on a variety of financial topics. Fees range from free to \$10,000 per seminar or free to \$100 per participant. Half of the fees are due prior to the engagement, and the other half are to be paid the day of, no later than the conclusion of the Seminar. The fee range is based on the content, amount of research conducted, number of hours of preparation needed, and the number of attendees. In the event of inclement weather or a flight cancellation, the Speaker shall make all reasonable attempts to make alternative travel arrangements to arrive in time for the presentation. If travel proves impossible, or the event is otherwise canceled, the Speaker's fee is waived, but the Client will still be responsible for reimbursement of any non-refundable travel expenses already incurred.

In the event that the Client decides to cancel or change the date of the event for any reason besides weather or similar unforeseen causes, the Client will still be responsible for reimbursement of any non-refundable travel expenses already incurred, and will provide payment for 100 % of the Speaker's fee if the cancellation occurs within 30 days of the event. In the event that the Speaker must cancel due to health or similar unforeseen circumstances, the Speaker will make all attempts to find a reasonable alternative engagement date and will absorb any incremental additional costs for obtaining alternative travel arrangements. If an alternative date cannot be obtained, the Client will not be responsible for any travel costs already incurred by the Speaker or any portion of the Speaker's fee.

Educational Seminars and Speaking Engagements may be provided pro-bono at SWM's discretion.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

CCR Section 260.238(j) Disclosure

Please note, lower fees for comparable services may be available from other sources.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees.

Item 7: Types of Clients

We provide financial planning and portfolio management services to individuals, high net-worth individuals, charitable organizations, other investment advisers, and corporations or other businesses.

Our minimum account size requirement for investment management is \$100,000. This account balance would be required throughout the course of the client's relationship with our firm; however, the minimum balance requirement may be negotiable in rare cases.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Our primary methods of investment analysis are fundamental and cyclical analysis.

Fundamental analysis involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Cyclical analysis is a type of technical analysis that involves evaluating recurring price patterns and trends based upon business cycles. Economic/business cycles may not be predictable and may have many fluctuations between long term expansions and contractions. The lengths of economic cycles may be difficult to predict with accuracy and therefore the risk of cyclical analysis is the difficulty in predicting economic trends and consequently the changing value of securities that would be affected by these changing trends.

Passive Investment Management

We primarily practice passive investment management. Passive investing involves building portfolios that are comprised of various distinct asset classes. The asset classes are weighted in a manner to achieve a desired relationship between correlation, risk and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark. Academic research indicates most active managers underperform the market.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the client's portfolio.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Inflation: Inflation may erode the buying-power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Commercial Paper is, in most cases, an unsecured promissory note that is issued with a maturity of 270 days or less. Being unsecured the risk to the investor is that the issuer may default.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on such factors as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Bank Obligations including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Options and other derivatives carry many unique risks, including time-sensitivity, and can result in the complete loss of principal. While covered call writing does provide a partial hedge to the stock against which the call is written, the hedge is limited to the amount of cash flow received when writing the option. When selling covered calls, there is a risk the underlying position may be called away at a price lower than the current market price.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which client's invest.

Investment Companies Risk. When a client invests in open end mutual funds or ETFs, the client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the client will incur higher expenses, many of which may be duplicative. In addition, the client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Item 9: Disciplinary Information

Criminal or Civil Actions

SWM and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

SWM and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

SWM and its management have not been involved in legal or disciplinary events that are material to a client's or prospective client's evaluation of SWM or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

No SWM employee is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No SWM employee is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

SWM does not have any related parties. As a result, we do not have a relationship with any related parties.

SWM only receives compensation directly from clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside part

SWM does not select other advisers for its clients.

Recommendations or Selections of Other Investment Advisers

As referenced in Item 4 of this brochure, SWM recommends clients to Outside Managers to manage their accounts. In the event that we recommend an Outside Manager, please note that we do not share in their advisory fee. Our fee is separate and in addition to their compensation (as noted in Item 5) and will be described to you prior to engagement. You are not obligated, contractually or otherwise, to use the services of any Outside Manager we recommend. Additionally, SWM will only recommend an Outside Manager who is properly licensed or registered as an investment adviser.

Disclosure of Material Conflicts

All material conflicts of interest under CCR Section 260.238(k) are disclosed regarding SWM, its representatives or any of its employees, which could be reasonably expected to impair the rendering of unbiased and objective advice.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each client. Our clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and

represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to clients.
- Competence - Associated persons shall provide services to clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Associated persons shall not disclose confidential client information without the specific consent of the client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matter shall reflect credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide of copy of its Code of Ethics to any client or prospective client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person is authorized to recommend to a client, or effect a transaction for a client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its "related persons" may buy or sell securities similar to, or different from, those we recommend to clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates' transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

Trading Securities At/Around the Same Time as Client's Securities

From time to time, our firm or its “related persons” may buy or sell securities for themselves at or around the same time as clients. We will not trade non-mutual fund securities 5 days prior to the same security for clients.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

In recommending custodians, we have an obligation to seek the “best execution” of transactions in Client accounts. The determinative factor in the analysis of best execution is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the custodian’s services. The factors we consider when evaluating a custodian for best execution include, without limitation, the custodian’s:

- Combination of transaction execution services and asset custody services (generally without a separate fee for custody);
- Capability to execute, clear, and settle trades (buy and sell securities for your account);
- Capability to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.);
- Breadth of available investment products (stocks, bonds, mutual funds, exchange-traded funds (ETFs), etc.);
- Availability of investment research and tools that assist us in making investment decisions
- Quality of services;
- Competitiveness of the price of those services (commission rates, margin interest rates, other fees, etc.) and willingness to negotiate the prices;
- Reputation, financial strength, security and stability;
- Prior service to us and our clients.

With this in consideration, our firm recommends Charles Schwab & Co., Inc. (“Schwab”), an independent and unaffiliated SEC registered broker-dealer firm and member of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”).

Research and Other Soft-Dollar Benefits

We do not have any soft-dollar arrangements with custodians whereby soft-dollar credits, used to purchase products and services, are earned directly in proportion to the amount of commissions paid by a Client. However, as a result of being on their institutional platform, Schwab may provide us with certain services that may benefit us.

Schwab Advisor Services™ is Schwab's business serving independent investment advisory firms like us. They provide our Clients and us with access to their institutional brokerage services (trading, custody, reporting and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our Clients' accounts, while others help us manage and grow our business. Schwab's support services are generally available on an unsolicited basis (we don't have to request them) and at no charge to us. The benefits received by Advisor or its personnel do not depend on the number of brokerage transactions directed to Schwab. As part of its fiduciary duties to Clients, Advisor at all times must put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of Schwab for custody and brokerage services. This conflict of interest is mitigated as Advisor regularly reviews the factors used to select custodians to ensure our recommendation is appropriate. Following is a more detailed description of Schwab's support services:

1. **Services that benefit you.** Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our Clients. Schwab's services described in this paragraph generally benefit you and your account.
2. **Services that may not directly benefit you.** Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our Clients' accounts. They include investment research, both Schwab's own and that of third parties. We may use this research to service all or a substantial number of our Clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:
 - provide access to Client account data (such as duplicate trade confirmations and account statements)
 - facilitate trade execution and allocate aggregated trade orders for multiple Client accounts
 - provide pricing and other market data
 - facilitate payment of our fees from our Clients' accounts
 - assist with back-office functions, recordkeeping, and Client reporting
3. **Services that generally benefit only us.** Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:
 - Educational conferences and events

- Consulting on technology, compliance, legal, and business needs
 - Publications and conferences on practice management and business succession
4. **Your brokerage and custody costs.** For our Clients' accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees.

2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

Our firm recommends Clients establish account(s) at Schwab to execute transactions through. We will assist with establishing your account(s) at Schwab, however, we will not have the authority to open accounts on the Client's behalf. Not all investment advisers require their Clients to use their recommended custodian. By recommending that Clients use Schwab, we may be unable to achieve most favorable execution of Client transactions, and this practice may cost Clients more money. We base our recommendations on the factors disclosed in Item 12 herein and will only recommend custodians if we believe it's in the best interest of the Client.

If Clients do not wish to utilize our recommended custodian, we permit Clients to direct brokerage. We will be added to your account through a limited trading authority. However, due to restraints from not having access to an institutional platform, we are unable to achieve most favorable execution of Client transactions. Clients directing brokerage may cost Clients more money. For example, in a directed brokerage account, the Client may pay higher brokerage commissions because we may not be able to aggregate orders to reduce transaction costs, or the Client may receive a higher transaction price at their selected custodian versus our recommended custodian.

Aggregating (Block) Trading for Multiple Client Accounts

Aggregating orders, batch trading, or block trading is a process where trades for the same securities are purchased or sold for several clients at approximately the same time. We do not engage in block trading. It should be noted that implementing trades on a block or aggregate basis may be less expensive for client accounts; however, it is our trading policy to implement all client orders on an individual basis. Therefore, we do not aggregate or "block" client transactions. Considering the types of investments we hold in advisory client accounts, we do not believe clients are hindered in any way because we trade accounts individually. This is because we develop individualized investment strategies for clients and holdings will vary. Our strategies are primarily developed for the long-term and minor differences in price execution are not material to our overall investment strategy.

Item 13: Review of Accounts

Client accounts with the Investment Management Service will be reviewed regularly on a quarterly basis by Anthony Matheson, Founder and CCO. The account is reviewed with regards to the client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per client's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

SWM will provide written reports to Investment Management clients on a quarterly basis. We urge clients to compare these reports against the account statements they receive from their custodian.

Comprehensive Financial Planning clients will receive a written report upon completion of the financial plan by Anthony Matheson, Founder and CCO. The client's progress on the plan will be reviewed on a monthly basis, and the plan may be updated and amended based on the client's financial profile and changes in goals and objectives that were set out in the original plan.

Item 14: Client Referrals and Other Compensation

Compensation Received by Slalom Wealth Management

SWM is a fee-only firm that is compensated solely by its Clients. SWM does not receive commissions or other sales-related compensation. Except as mentioned in Item 12 above, we do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients.

Client Referrals from Solicitors

SWM does not, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

Item 15: Custody

SWM does not accept custody of client funds except in the instance of withdrawing client fees.

For client accounts in which SWM directly debits their advisory fee:

- i. SWM will send a copy of its invoice to the custodian at the same time that it sends the client a copy.
- ii. The custodian will send at least quarterly statements to the client showing all disbursements for the account, including the amount of the advisory fee.
- iii. The client will provide written authorization to SWM, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker dealer, bank or other qualified custodian that holds and maintains client's investment assets. We urge you to carefully review such statements and

compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

For those client accounts where we provide investment management services, we maintain discretion over client accounts with respect to securities to be bought and sold and the amount of securities to be bought and sold. Investment discretion is explained to clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the client.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of client funds or securities or require or solicit prepayment of more than \$500 in fees per client six months in advance.

Item 19: Requirements for State-Registered Advisers

Anthony Matheson

Born: 1971

Educational Background

- 2010 - Bachelor Arts, Theology, Bethany University

Business Experience

- 12/2017 – Present, Slalom Wealth Management, Founder and CCO
- 04/2017 – 01/2018, Baker Brose & Mitsutome, VP - Wealth Management Advisor
- 08/2016 – 04/2017, E*TRADE Securities, Financial Advisor
- 03/2015 – 05/2016, Mirae Asset Global Investments, VP - Bus Dev, Western Reg
- 03/2013 – 03/2015, Global Atlantic Financial, VP - Bus Dev, Western Reg
- 05/2011 – 03/2013, Piedmont Capital, VP - Bus Dev, Western Reg
- 02/2010 – 05/2011, Self Employed & Student
- 03/2001 – 02/2010, Principal Financial, VP - Bus Dev, Western Reg

Professional Designations, Licensing & Exams

CFP (Certified Financial Planner)®: The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board's enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Other Business Activities

Slalom Wealth Management, LLC, nor Anthony Matheson, are not involved in any outside business activities.

Performance Based Fees

SWM is not compensated by performance-based fees.

Material Disciplinary Disclosures

No management person at Slalom Wealth Management, LLC has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have With Issuers of Securities

Slalom Wealth Management, LLC, nor Anthony Matheson, have any relationship or arrangement with issuers of securities.

Additional Compensation

Anthony Matheson does not receive any economic benefit from any person, company, or organization, in exchange for providing clients advisory services through SWM.

Supervision

Anthony Matheson, as Founder and Chief Compliance Officer of SWM, is responsible for supervision. He may be contacted at the phone number on this brochure supplement.

Requirements for State Registered Advisers

Anthony Matheson has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.

Conflicts of Interest

Pursuant to California Code of Regulations Section 260.238 (k) any material conflicts of interest regarding the investment adviser, its representatives or any of its employees are disclosed to the client prior to entering into any Advisory or Financial Planning Agreement.

Business Continuity Plan

SWM Financial Partners maintains a written Business Continuity Plan that identifies procedures related to an emergency or significant business disruptions, including death of the investment adviser or any of its representatives.
